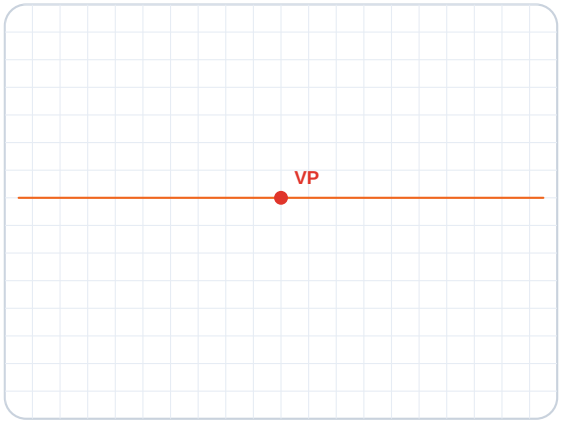
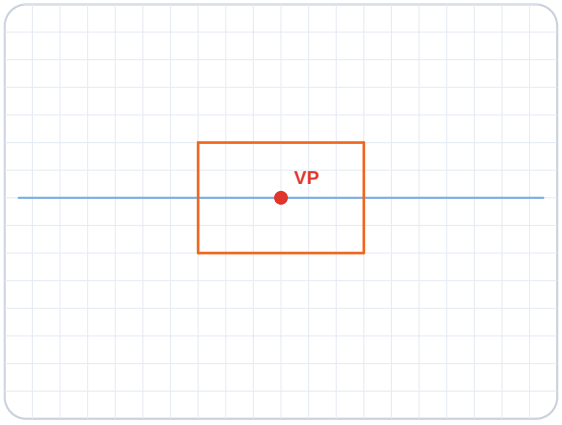
Your first room

Follow the steps. Orange = the line you draw in that step. Blue = light guide lines.



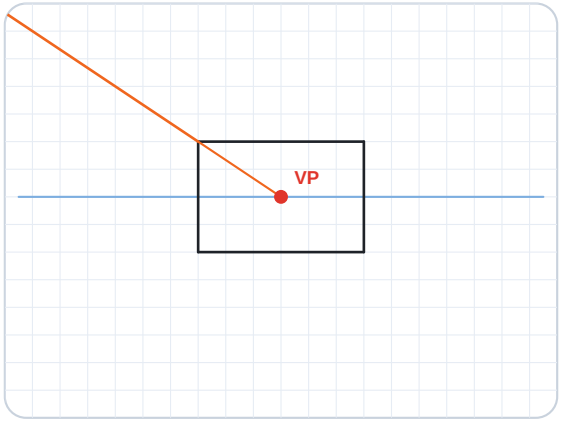
STEP 1 **Horizon and VP**

Start with the horizon and a vanishing point in the middle of the page.



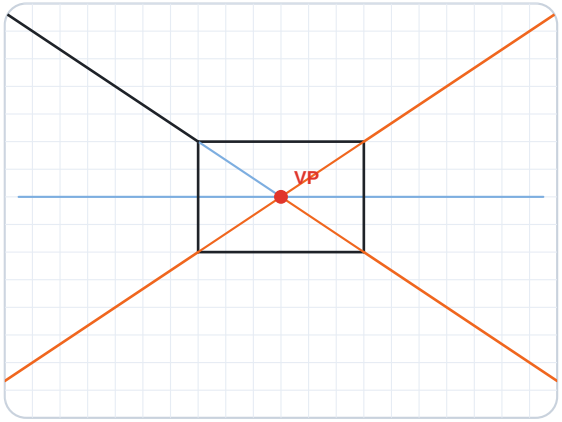
STEP 2 **Draw the back wall**

Draw a rectangle around the vanishing point, one side at a time: top, right, bottom, left. This is the far wall of the room.



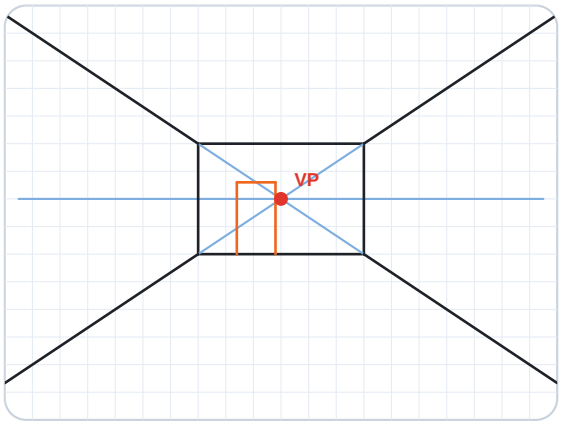
STEP 3 **The first corner line**

Put your ruler on the VP and on the top left corner of the wall. Draw a light line from the VP to the corner, then keep going in the same direction to the edge of the page.



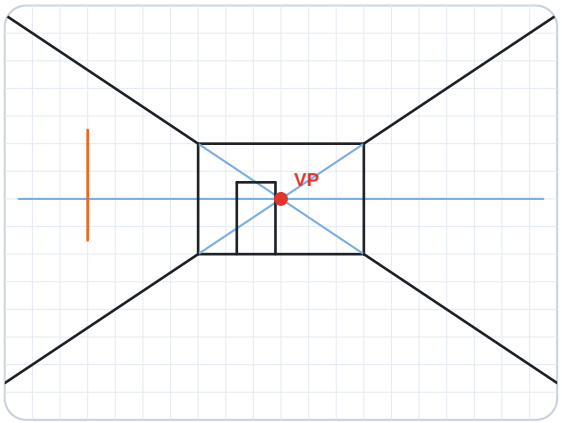
STEP 4 **The other three corners**

Do the same for the other three corners, one at a time. Start at the VP, pass through the corner and continue to the edge. Now you have a ceiling, a floor and two side walls.



STEP 5 **The door**

On the back wall, draw the left side of the door straight up from the floor line. Then draw the top, then the right side.

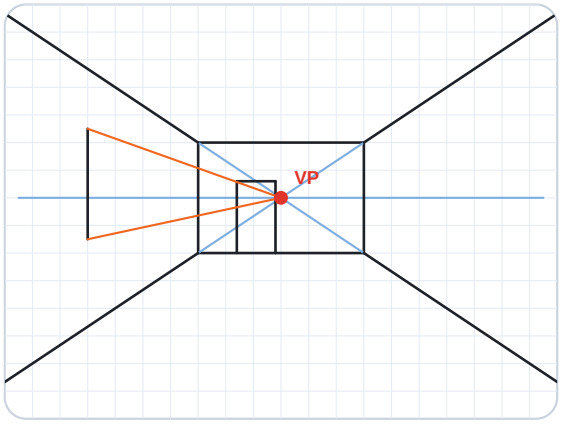


STEP 6 **Window: the near edge**

On the left wall, draw one vertical line. This is the edge of the window closest to you.

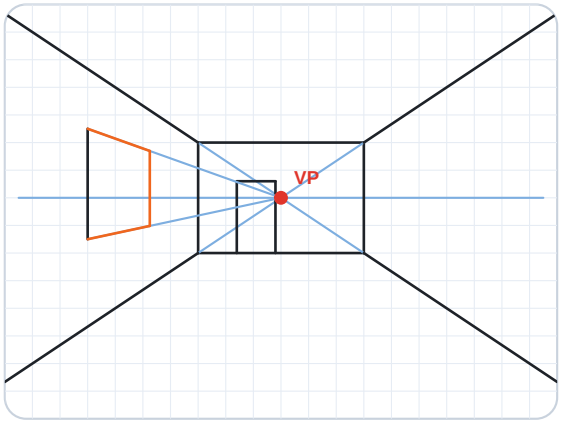
Your first room

Follow the steps. Orange = the line you draw in that step. Blue = light guide lines.



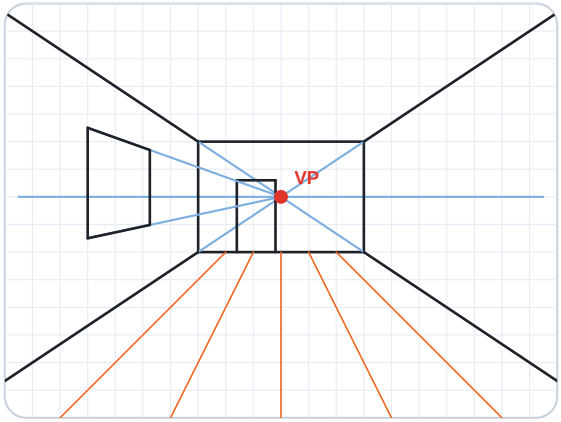
STEP 7 **Window: top and bottom**

Put your ruler on the VP and on the top of that line, and draw a light line. Do the same for the bottom. The window sits between these two lines.



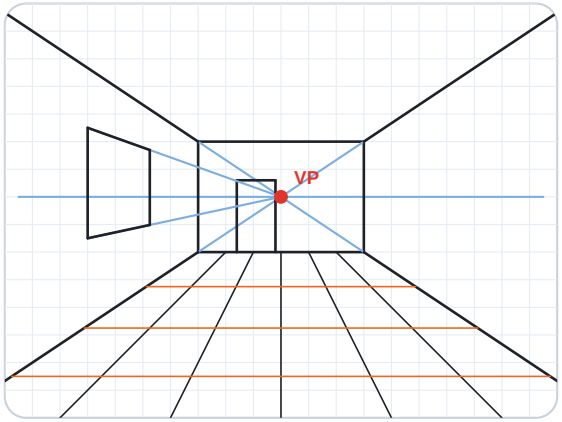
STEP 8 **Window: the far edge**

Draw a second vertical line between the two guide lines. Then ink the top and the bottom of the window along the guides.



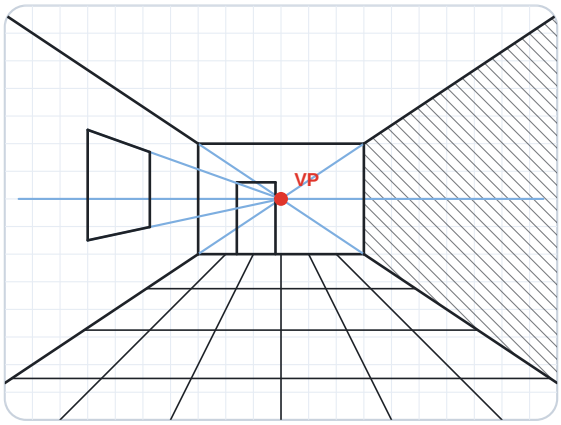
STEP 9 **Floor lines to the VP**

Draw lines from the bottom of the back wall down to the bottom of the page, one at a time. Every line points back to the VP.



STEP 10 **Floor lines across**

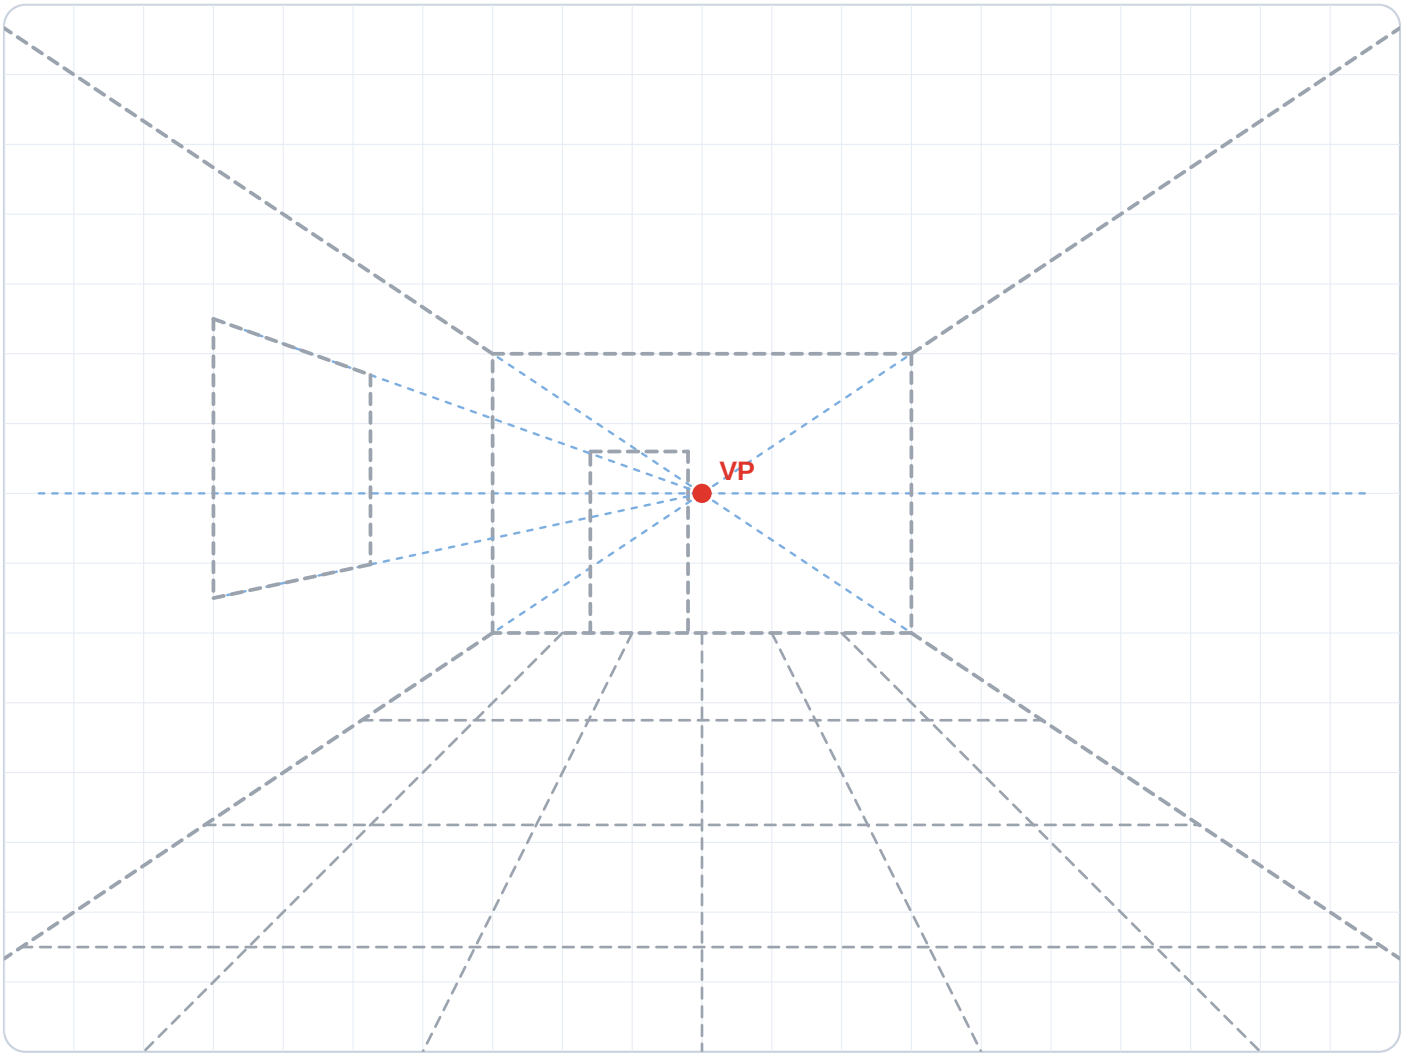
Now draw horizontal lines across the floor. Make the gaps smaller as they get closer to the back wall.



STEP 11 **Shade a wall**

Shade the right wall to show where the light comes from. Your first room is done.

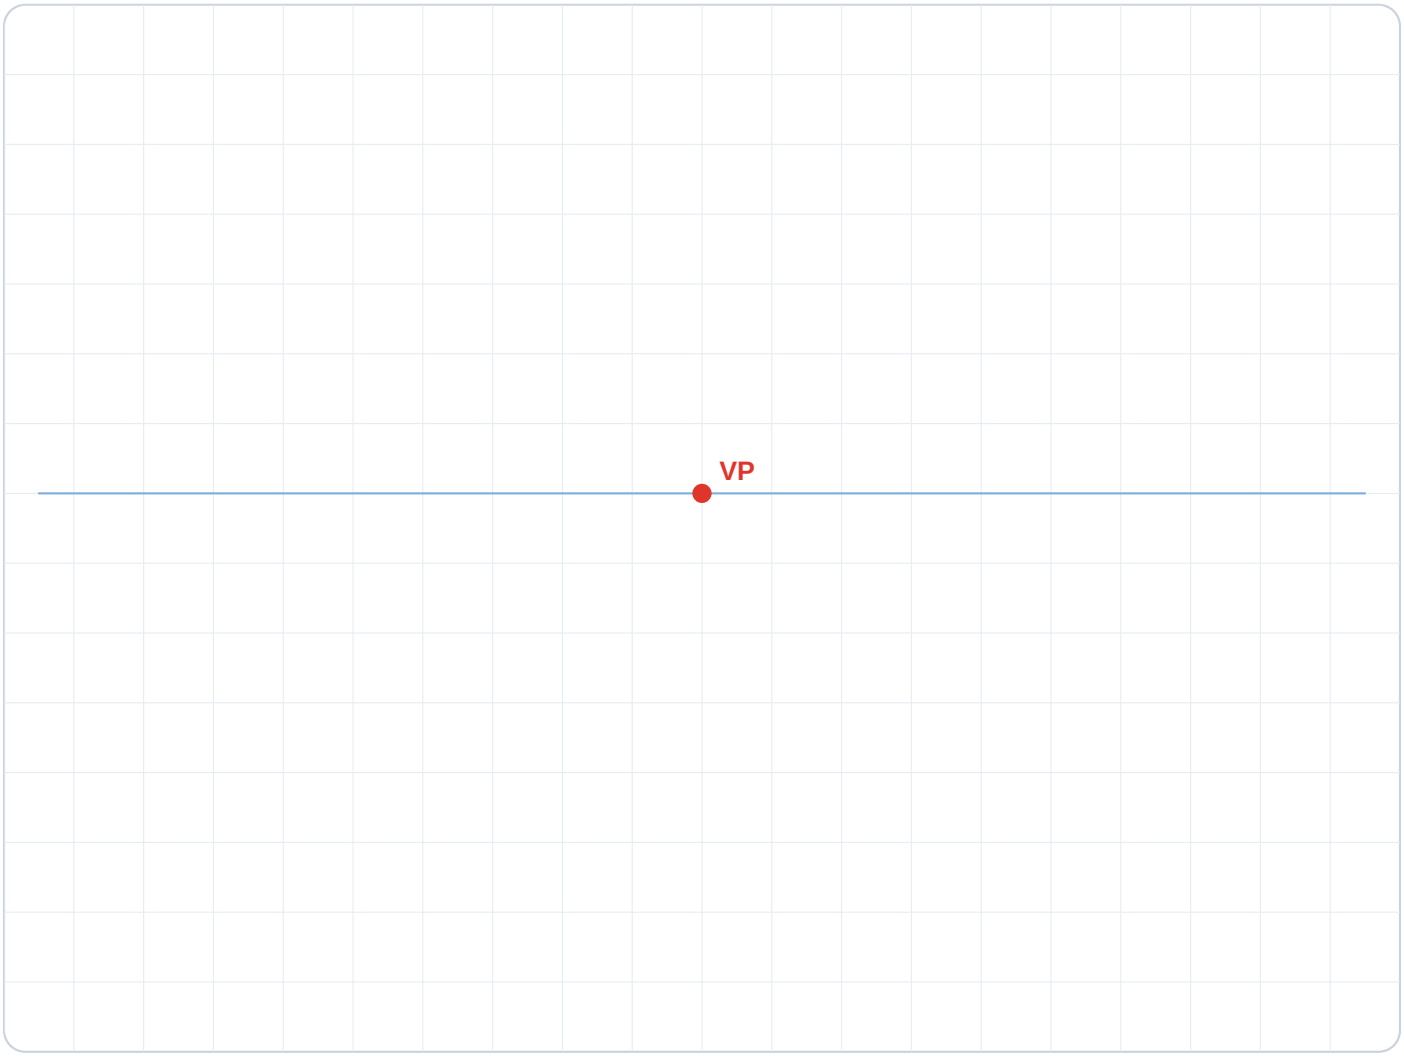
Your first room



How to use this page

1. Trace the blue dotted guide lines very lightly.
2. Go over the grey dashed lines firmly. Use a ruler.
3. Shade the dark side last. Then try it on the next page without help.

Your first room



Now draw it on your own

The horizon and vanishing point are already here. Build the drawing from step 2.
