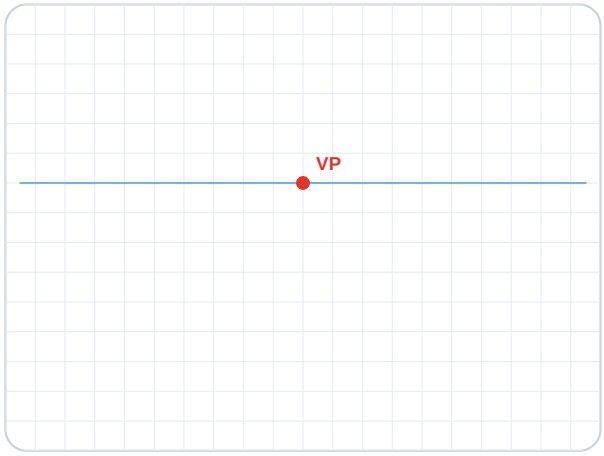
# Road to the horizon

Follow the steps. Orange = the line you draw in that step. Blue = light guide lines.

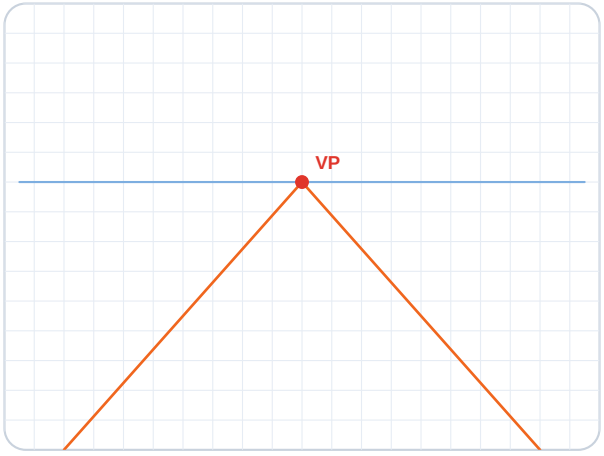
**STEP 1 Find your eye level**

Draw a light horizontal line across the page. This is the horizon: the height of your eyes.



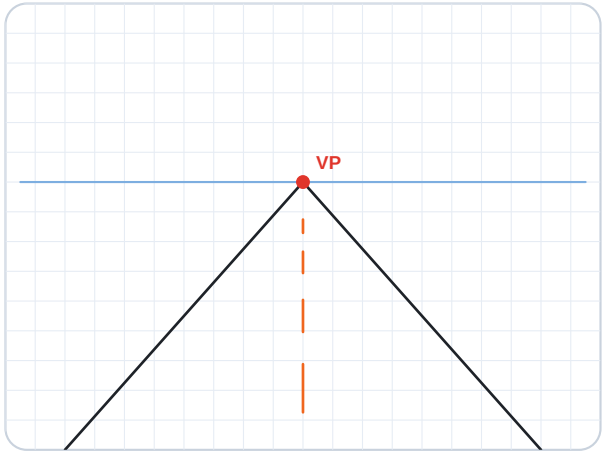
**STEP 2 Place the vanishing point**

Put one dot in the middle of the horizon. Everything that goes away from you meets at this point.



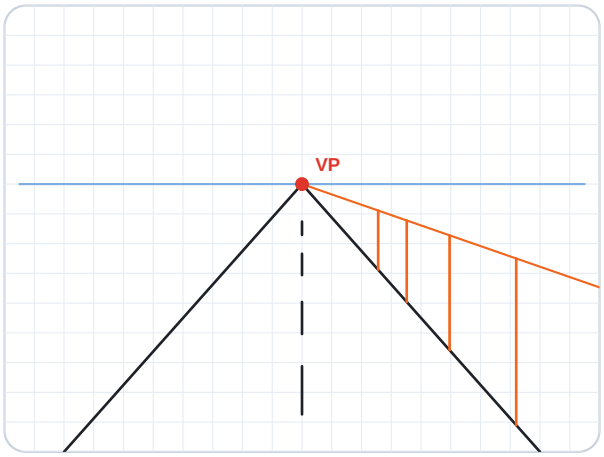
**STEP 3 Draw the road**

From the dot, draw two lines down to the bottom corners of the page. That is a road running to the horizon.



**STEP 4 Dash the centre line**

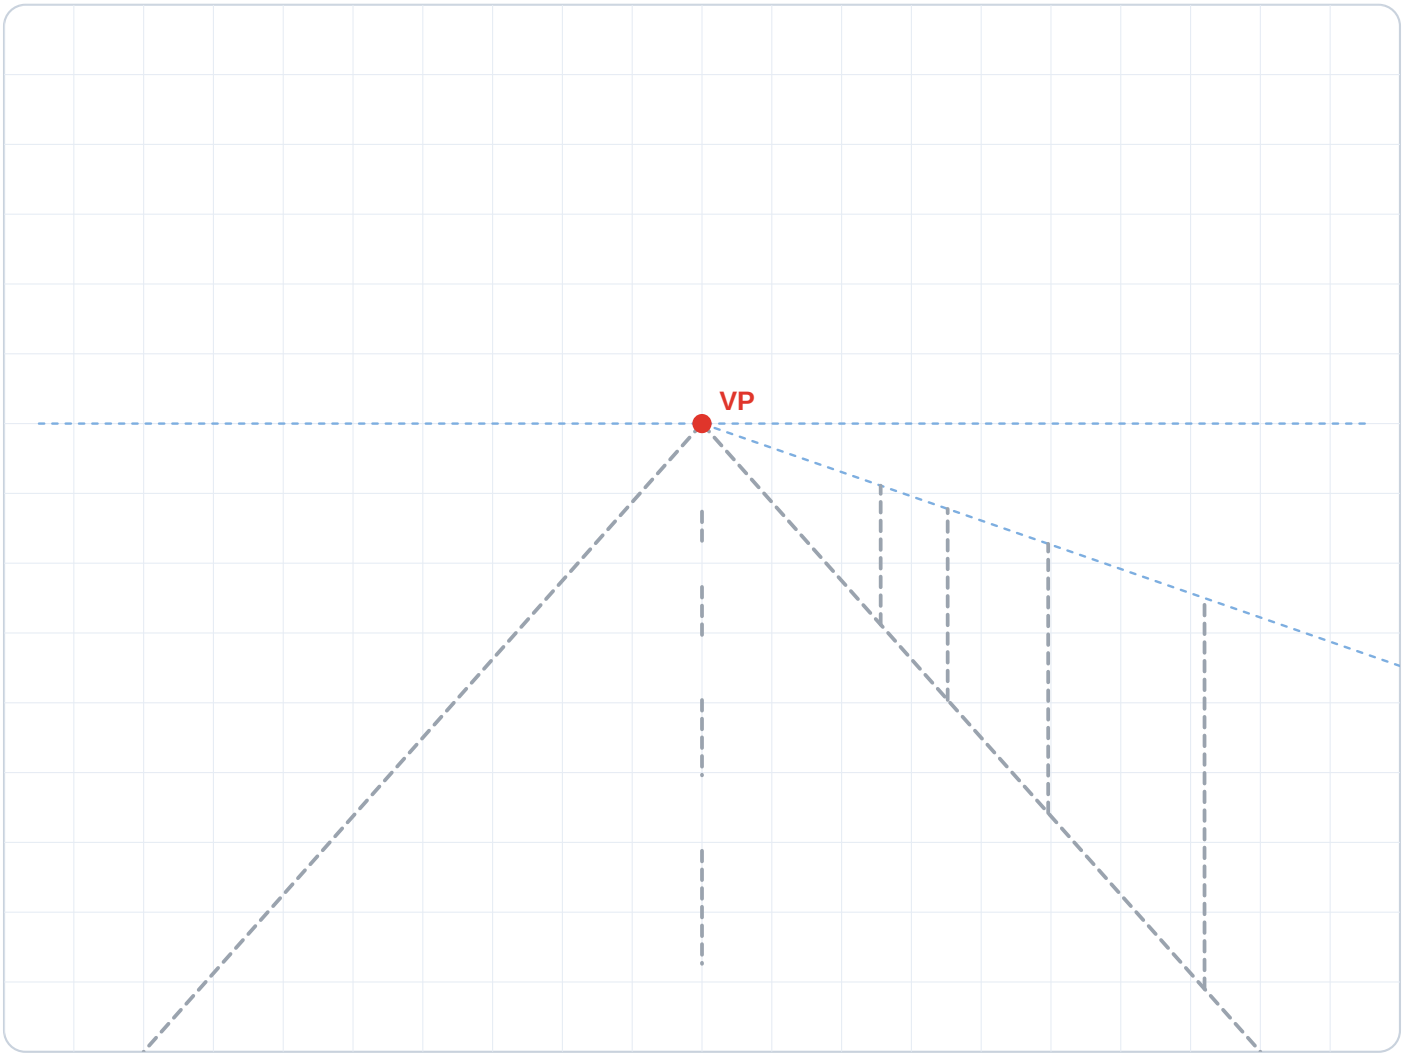
Add the centre line as dashes. Each dash gets shorter as it gets closer to the vanishing point.



**STEP 5 Line up the poles**

Draw the closest pole. Run a guide line from its top to the VP. Every other pole stands on the road edge and stops at that line.

# Road to the horizon



## How to use this page

1. Trace the blue dotted guide lines very lightly.
2. Go over the grey dashed lines firmly. Use a ruler.
3. Shade the dark side last. Then try it on the next page without help.

# Road to the horizon

## Now draw it on your own

The horizon and vanishing point are already here. Build the drawing from step 2.
