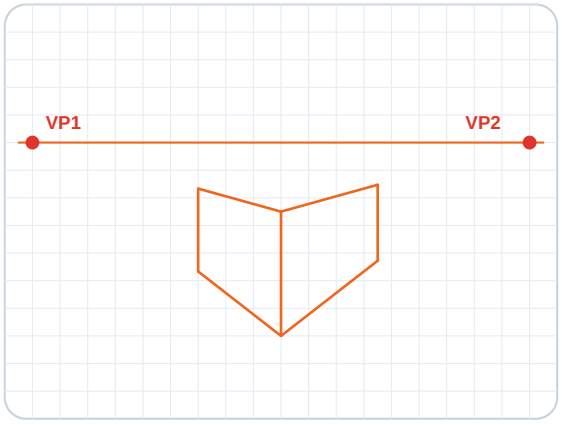
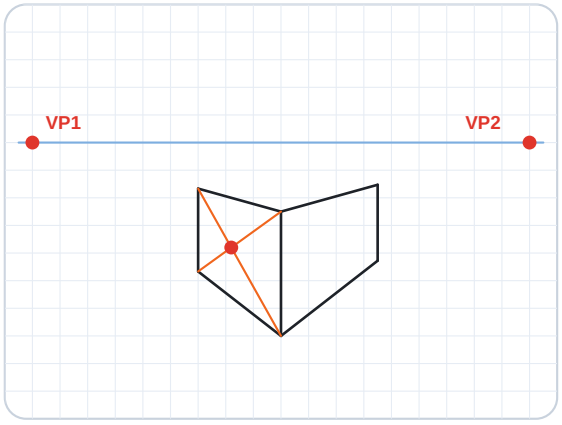
A simple house

Follow the steps. Orange = the line you draw in that step. Blue = light guide lines.



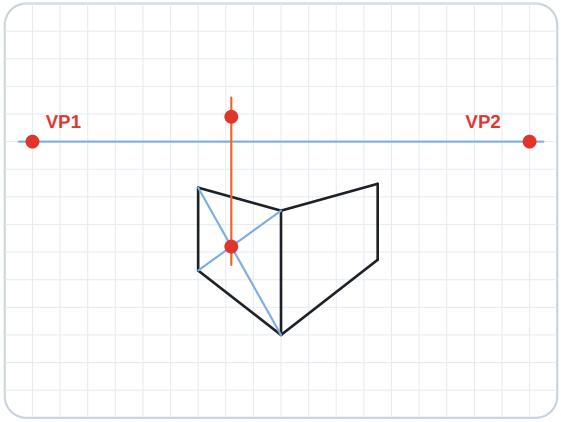
STEP 1 **Start with a box**

Draw a two-point box, like the last lesson, but leave out the top face.



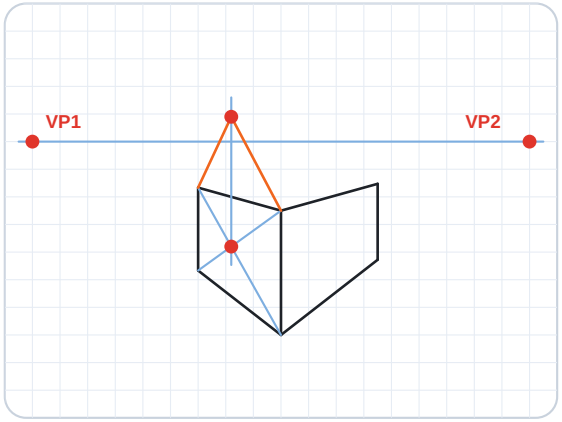
STEP 2 **Find the centre**

Draw an X from corner to corner on the left face. Where the lines cross is the centre in perspective.



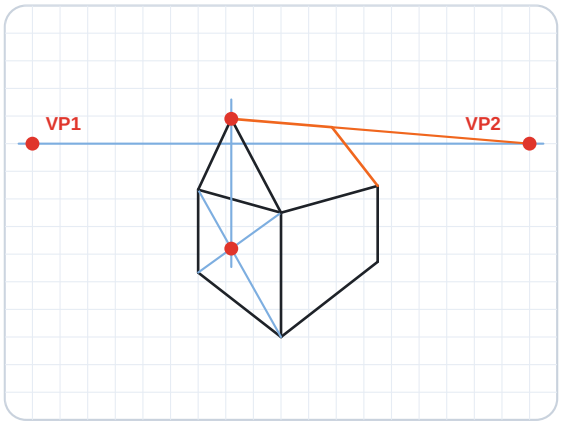
STEP 3 **Raise the peak**

Draw a vertical line up through the centre and mark the top of the roof on it.



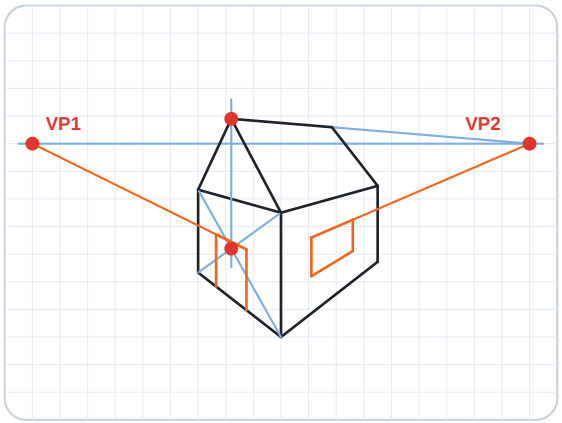
STEP 4 **Draw the gable**

Connect the peak to the two top corners of the left face. That triangle is the end of the roof.



STEP 5 **Run the ridge**

Draw the ridge from the peak toward VP2. Bring the back roof edge down to the far corner of the box.

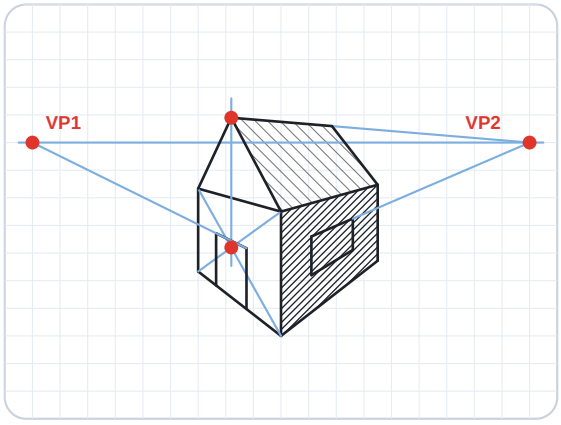


STEP 6 **Door and window**

Door and window edges follow the same rule: verticals stay vertical, the other edges point to their VP.

A simple house

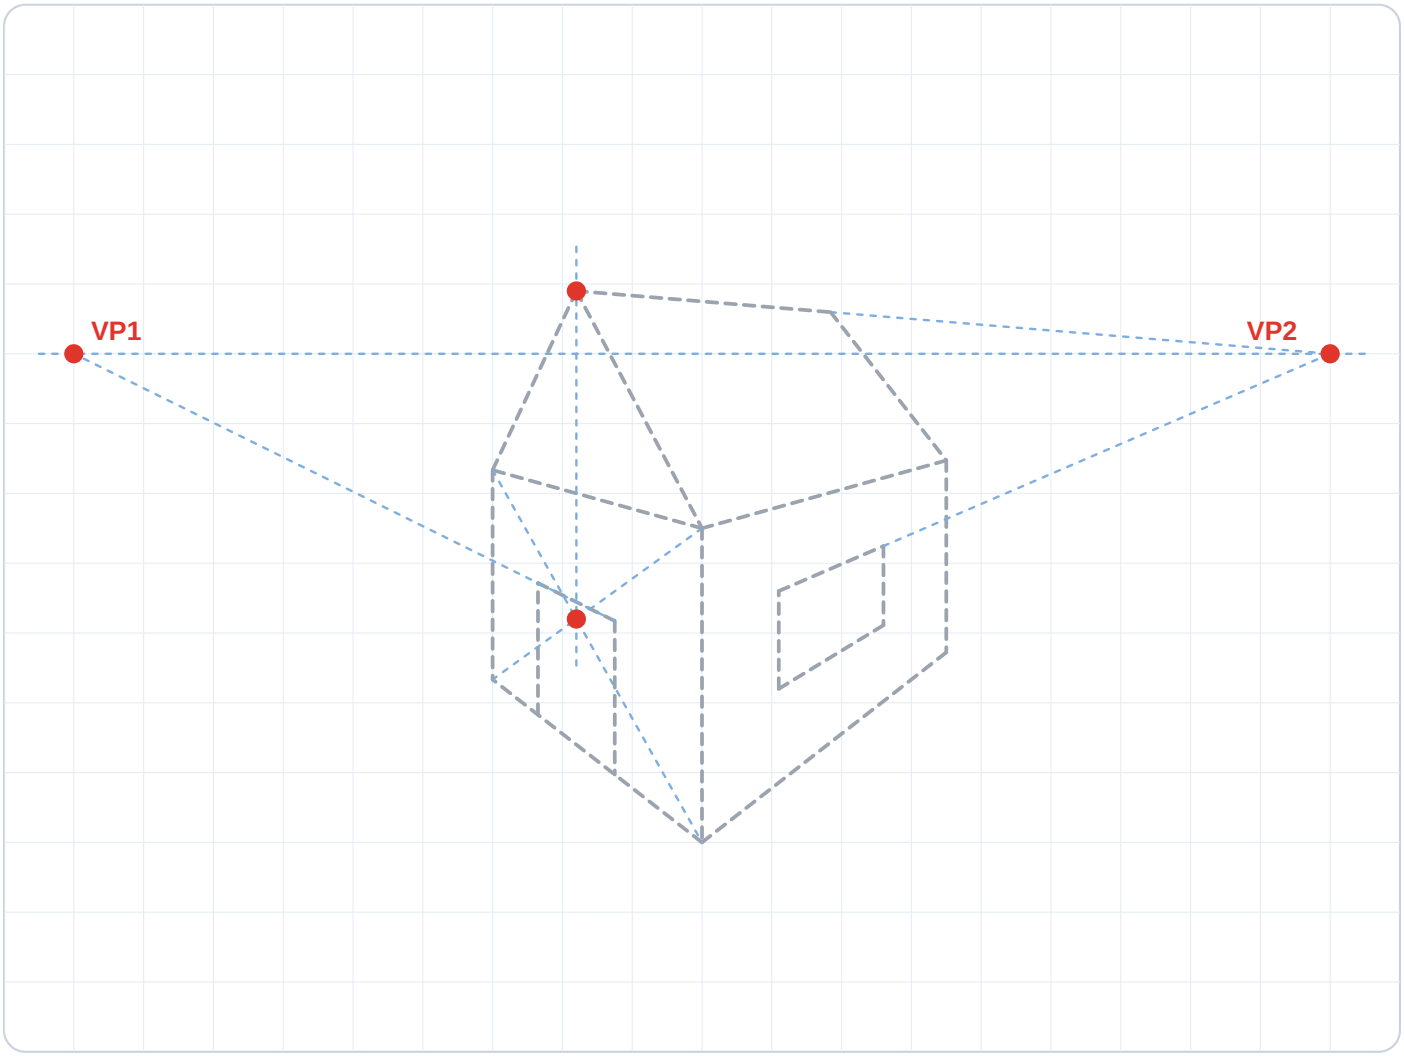
Follow the steps. Orange = the line you draw in that step. Blue = light guide lines.



STEP 7 **Shade and finish**

Tone the roof lightly and shade the long wall.
Your house is finished.

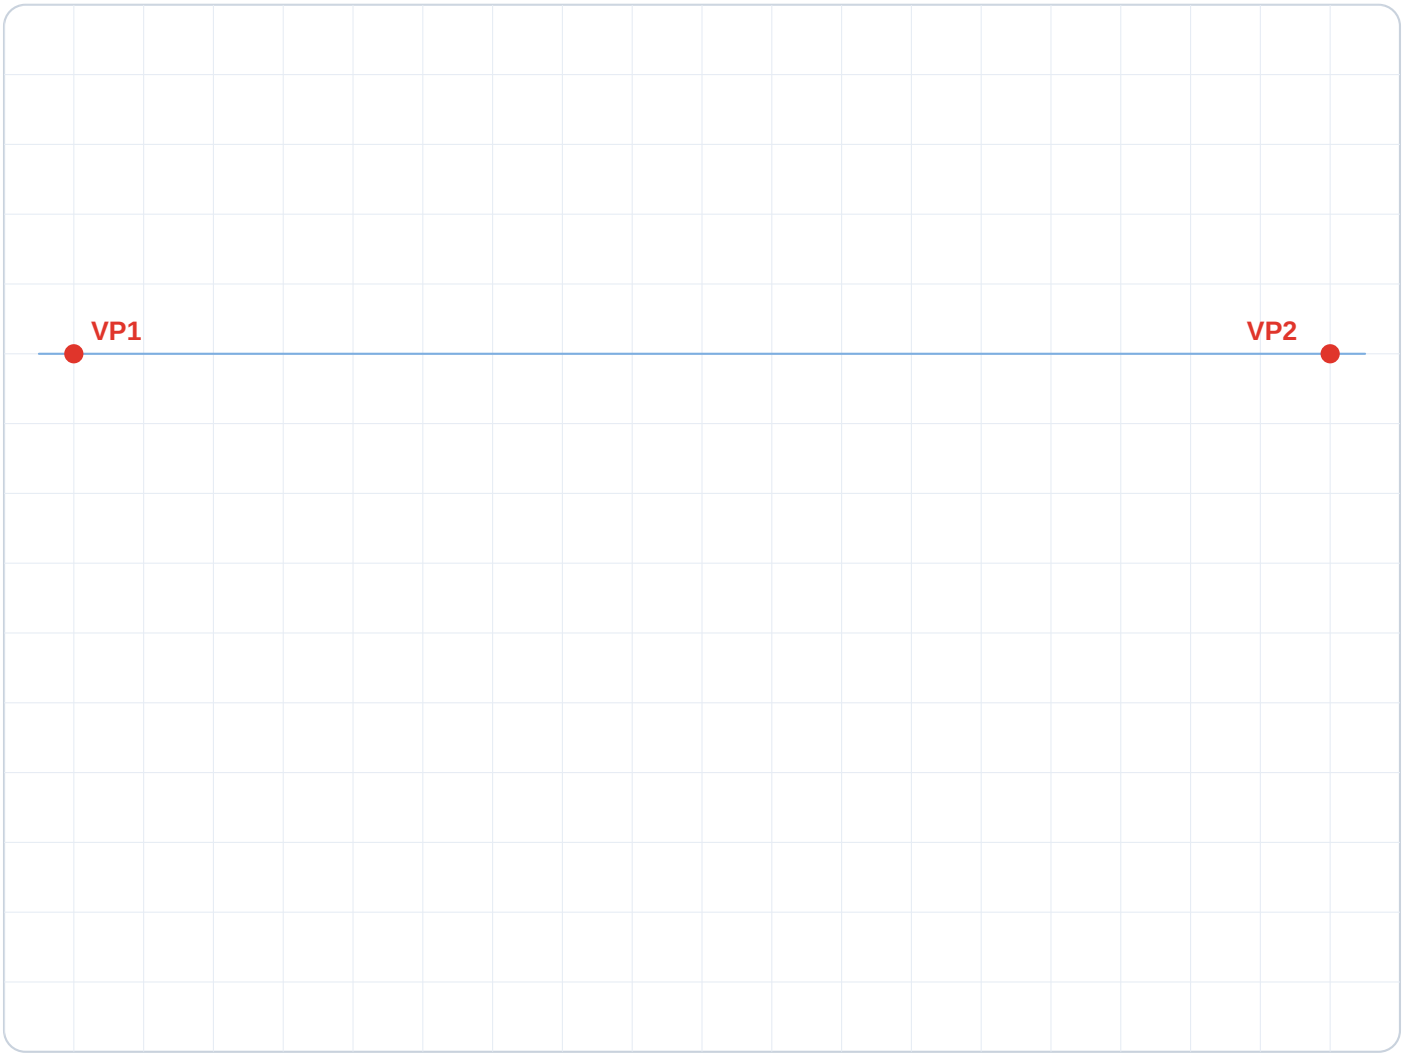
A simple house



How to use this page

1. Trace the blue dotted guide lines very lightly.
2. Go over the grey dashed lines firmly. Use a ruler.
3. Shade the dark side last. Then try it on the next page without help.

A simple house



Now draw it on your own

The horizon and vanishing point are already here. Build the drawing from step 2.
