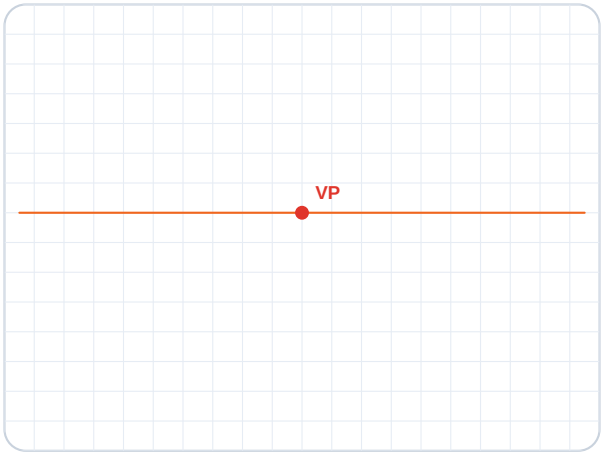
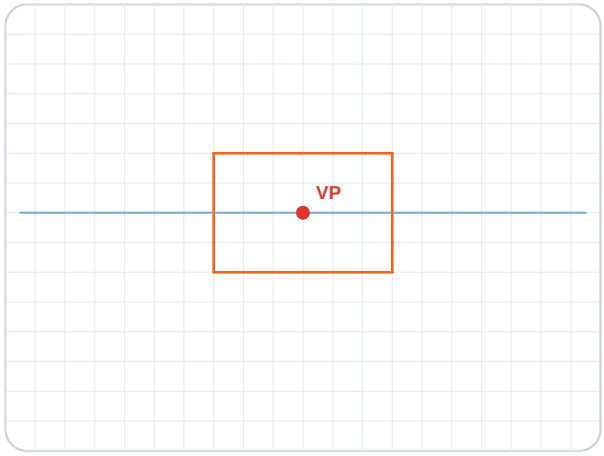
Your first room

Follow the steps. Orange = the line you draw in that step. Blue = light guide lines.



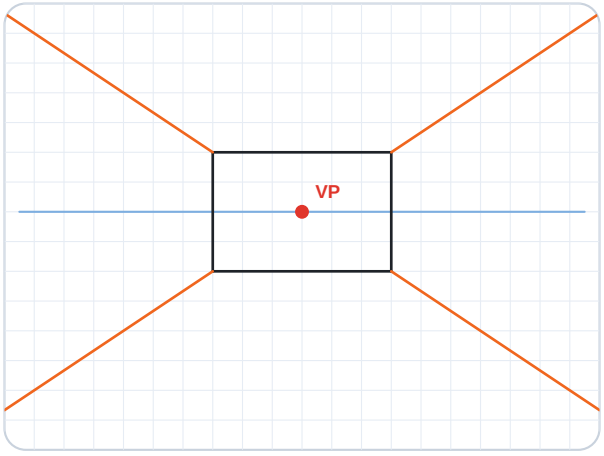
STEP 1 **Horizon and VP**

Start with the horizon and a vanishing point in the middle of the page.



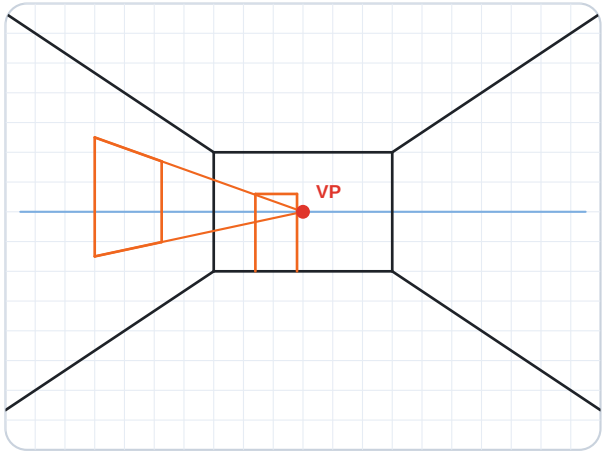
STEP 2 **Draw the back wall**

Draw a rectangle around the vanishing point. This is the far wall of the room.



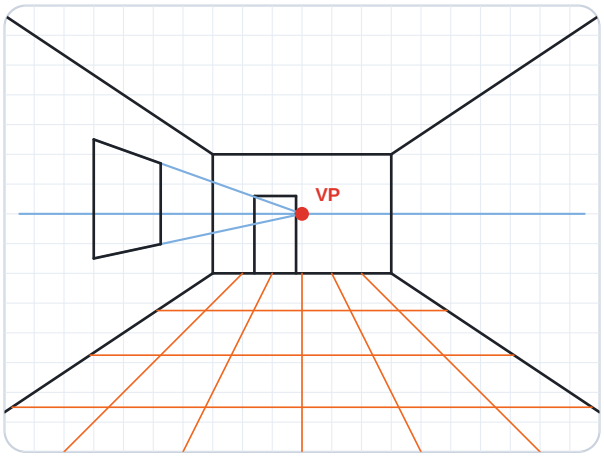
STEP 3 **Open up the room**

Draw lines from the VP through each corner, out to the edge of the page. Now you have a floor, a ceiling and two side walls.



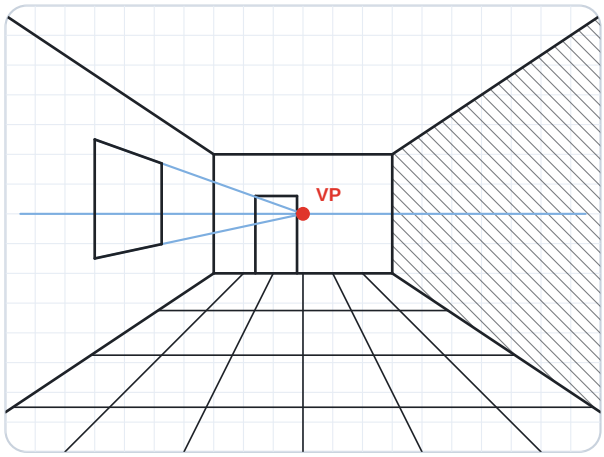
STEP 4 **Add a door and a window**

The door on the back wall is a plain rectangle. On the side wall, the window's top and bottom edges point to the VP.



STEP 5 **Lay the floor tiles**

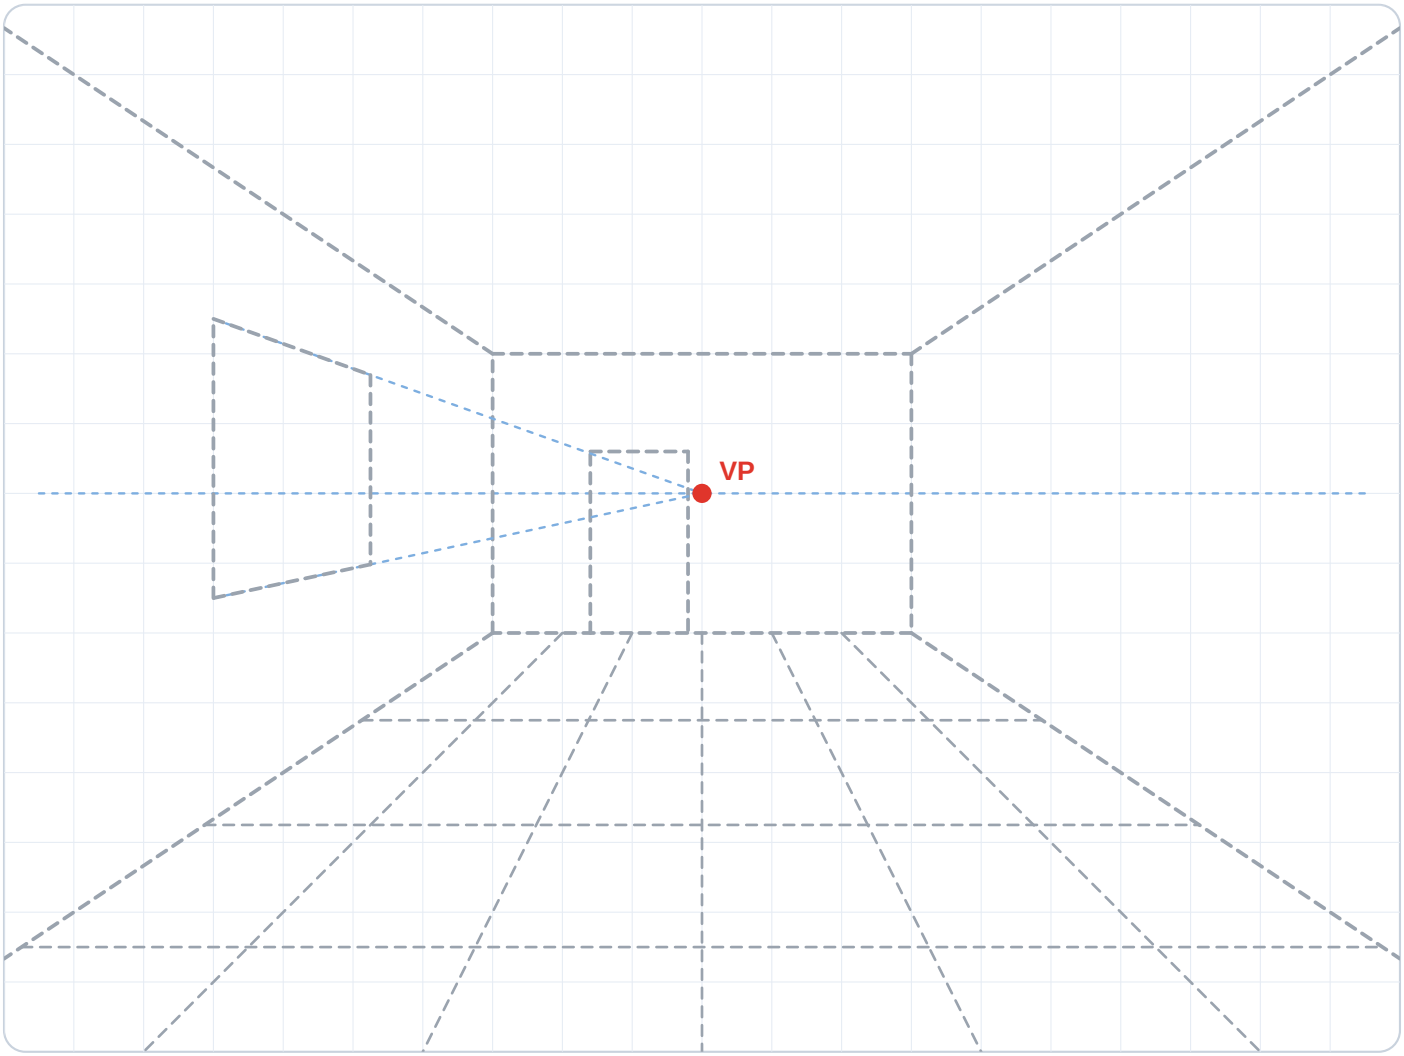
Draw lines from the VP down to the bottom of the page. Then add horizontal lines that get closer together as they go back.



STEP 6 **Shade a wall**

Shade the right wall to show where the light comes from. Your first room is done.

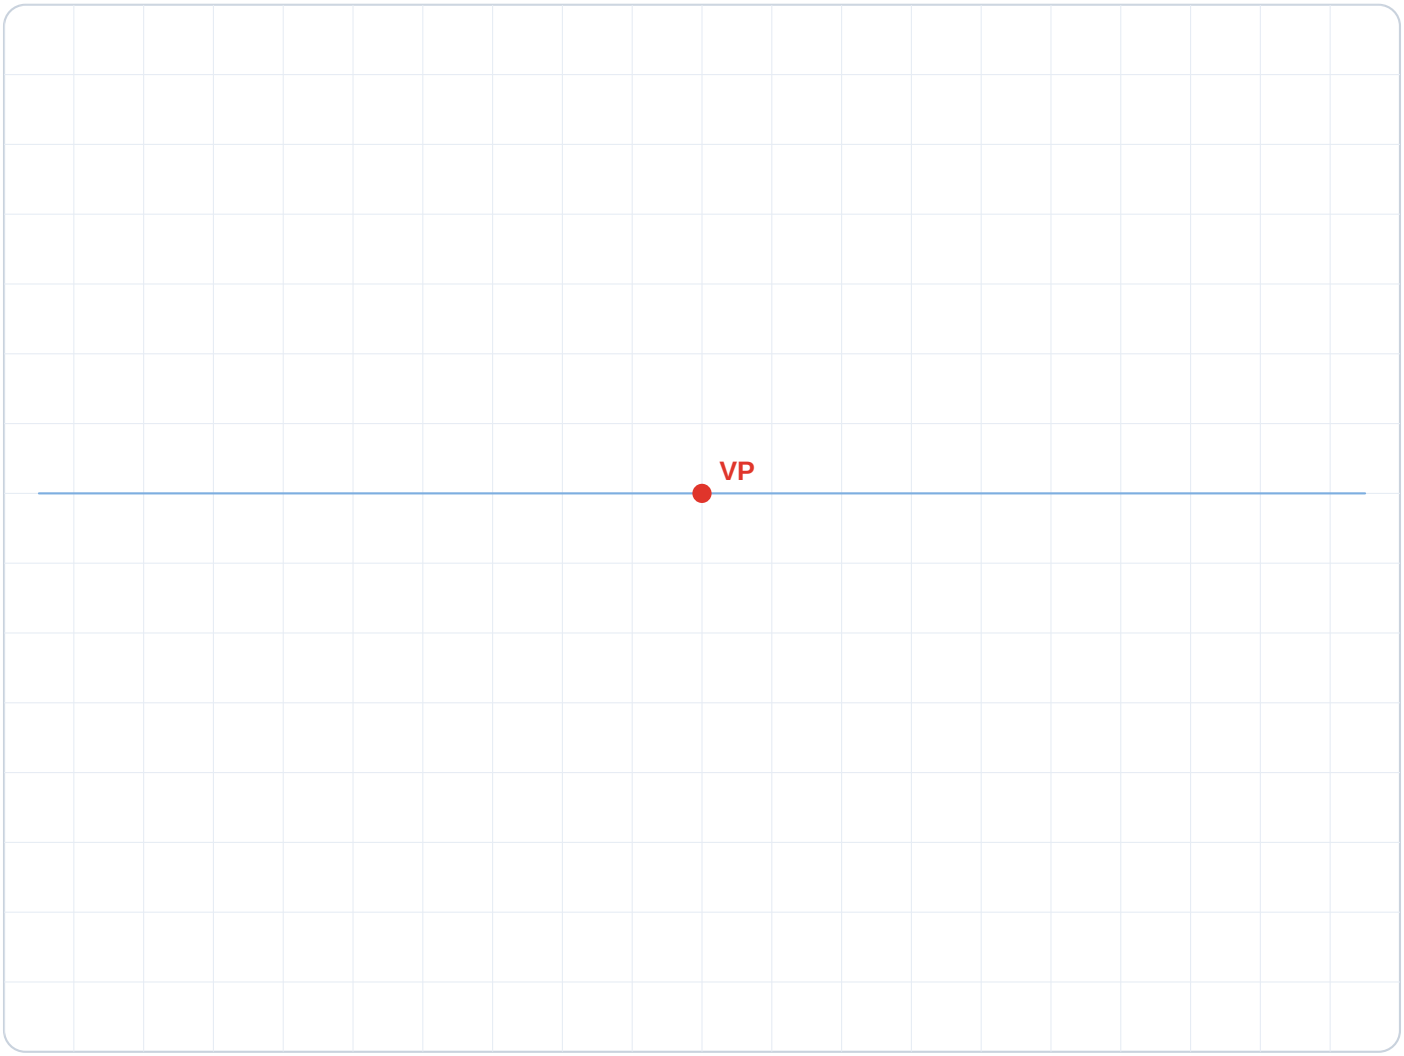
Your first room



How to use this page

1. Trace the blue dotted guide lines very lightly.
2. Go over the grey dashed lines firmly. Use a ruler.
3. Shade the dark side last. Then try it on the next page without help.

Your first room



Now draw it on your own

The horizon and vanishing point are already here. Build the drawing from step 2.
